Connectivity

MyŠKODA Essentials

Škoda connect and other digital services in you pocket.

It's about the journey, not just the destination – and with the Škoda Kamiq, everyone in the vehicle can enjoy the trip. A connected multimedia system makes it easy to communicate with friends and family, get the information you need, and keep you and your passengers happy and entertained while you drive.

With MyŠKODA Essentials you can enjoy even greater interaction with your vehicle. Use the app to remotely check the status of your vehicle, lock or unlock it, or display its parking position. Benefit from statistical insights into your last trip and use them to plan a more efficient route next time. The app also offers access to the vehicle manual or allows you to interact with your preferred service partner, with a number of further functions just waiting to be explored.

With MyŠKODA Essentials in place, your car remains under your control at all times. The app is available for download via the App Store (iOS) and Google Play (Android). Škoda Connect services are available based on the ordered service bundle: Infotainment Online or Proactive Service and Remote Access.
