# ALLOY WHEELS

ACCESSORIES

# CHANGE THE CHARACTER

Not only do alloy wheels influence the overall perception of the exterior, but they can also change the character of the car. Their design can bring more dynamism, underscore elegance, make the vehicle more sporty or give an impressive-looking family vehicle an added level of comfort. Because it's not just about style. It's also about ensuring your safety. Alloy wheels from ŠKODA Accessories combine unique design with optimum functionality and safety.

Before any set of wheels go onto a ŠKODA model, they must meet the strictest of quality requirements. They must go through an extensive battery of tests - the same as for series production products. Inside you'll find a wide range of high-quality options with a guaranteed long life and a great opportunity to personalise your ride.

# BUSSINESS CLASS WITH TOUCH OF PERFECTION

## ALLOY WHEELS RANGE

The same way shoes tell important things about you, rims tell about your car. Whether your goal is to accentuate ŠKODA's elegant or sports attributes, genuine wheels are a perfect match.

The product consists of a lightweight alloy wheel (including a wheel-centre cap with the ŠKODA logo).

 May be used with snow chains

ALLOY WHEELS ENG 42/21

ŠKODA Genuine Accessories are offered by ŠKODA as optional extras at additional charges. Colours, designs and materials may differ from those in the illustrations. Information such as specifications, appearance, performance, dimensions, weight, fuel consumption and operating costs relating to the illustrated vehicles and products is based on information available at the time of printing this document, and ŠKODA AUTO reserves the right to change these data. Correct rim and tyre size combinations are available in the Registration Certificate and/or from your dealer. When choosing snow-chains, make sure to follow the indication in your car's certificate of roadworthiness. Wheels depicted on the cars may not be part of the available range. Please contact your ŠKODA Partner for information as to which products are available and suitable for your model, what restrictions apply, the installation times required and costs. Subject to change without notice. Vehicle parameters such as weight, rolling resistance and aerodynamics may vary depending on additional equipment and accessories (attachments, tyre sizes, etc.) and may, together with weather, traffic conditions and individual driving styles, affect fuel consumption, electricity consumption, CO<sub>2</sub> emissions and other performance parameters. ŠKODA Genuine Accessories are not used to determine consumption and emission levels, and can therefore only be fitted after the vehicle's first registration.
